VAIL RESORTS

OUR COMMITMENT TO THE ENVIRONMENT

Much like the living world, social responsibility is inherently essential to Vail Resorts. Vail Resorts Echo, the Company's corporate stewardship program, nurtures social responsibility in our company. Aimed at both protecting the beautiful natural resources that surrounds the resorts and helping build stronger communities where our employees live and work, Vail Resorts Echo encompasses three core efforts – environmental

Vail Resorts Echo focuses on:

- Forest restoration and resource conservation
- Providing all kids access to snowsports
- Programs that create healthy kids and communities

stewardship, charitable giving and community engagement.

Over the past 2 years. Beaver Creek has reduced overall energy use by nearly 13%. Last season Beaver Creek started a successful pilot program for composting at our on-mountain restaurants. Food waste from on-mountain restaurants was collected and diverted from the landfill and turned into usable compost.

SAFETY ON THE SLOPES

Heads Up - Know the Code, It's Your Responsibility Beaver Creek received its erall Safety Award from the National Ski Areas Association. We pride ourselv on instilling safety as a core value among employees and also educating and promoting a safe, fun environment on the mountain for guests.

Your Responsibility Code

reek is committed to promoting skier safety. In addition to people using traditional alpine ski equipment, you may be joined on the slopes by snowboarders, telemark skiers or cross-country skiers, skiers with disabilities, skiers with specialized equipment and thers. Always show courtesy to others and be aware that there are elements of risk in Know your ability level and stay within it. Observe "Your Responsibility Code" listed below nd share with other skiers the responsibility for a great skiing experience

- Always stay in control, and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them. You must not stop where you obstruct a trail, or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others. Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas
- Prior to using any lift, you must have the knowledge and ability to load, ride

Unmarked Obstacles Be advised that Beaver Creek does not mark all potential obstacles or hazards. When marked, poles, flags, fencing, signage, padding or other forms of marking are used to inform the skier/rider of the location of a potential obstacle or hazard. These markers are no guarantee of your safety. It is part of your responsibility under the Your Responsibility Code and the Colorado Ski Safety Act to avoid all obstacles and hazards.

Colorado Ski Safety Act. The Colorado legislature, recognizing risks that are inherent in the sport, has passed the Colorado Ski Safety Act which provides inherent risks of the sport and relative responsibilities of the "skier" and the ski area. You must obey the Act. Under the Act, any person using the facilities of a ski area is considered a skier. A summary of the inherent risks is listed below:

WARNING

Under Colorado law, a skier assumes the risk of any injury to person or property resulting from any of the inherent dangers and risks of skiing and may not recover from any ski area operator for any injury resulting from any of the inherent dangers and risks of skiing, including: changing weather conditions; existing and changing snow conditions; bare spots; rocks; stumps; trees; collisions with natural objects, man-made objects, or other skiers; variations in terrain; and the failure of skiers to ski within their own abilities.

The Ski Safety Act was amended in 2004 to include CLIFFS, EXTREME TERRAIN, JUMPS AND FREESTYLE TERRAIN as inherent dangers and risks of the sport.

Trail Designations Skiers and Riders should be advised that a green circle, blue square, single or double black diamond, or orange oval at Beaver Creek is not necessarily the same as a similar designation at other resorts. The system is a relative rating of trails at each resort and does not compare trail or park difficulty between resorts. Skiers and Riders should begin with the easiest terrain and then move up in difficulty as their ability permits in order to understand the relative rating at Beaver Creek.

Electronic Devices Beaver Creek discourages the use of electronic devices—cell phones, music players, or earphones—while skiing and snowboarding, or loading and

"Smart Style" in Freestyle Terrain

Make A Plan. Every time you use Freestyle Terrain, make a plan for each feature you want use. Your speed, approach and takeoff will directly affect your maneuver and land

Look Before You Leap. You are responsible for inspecting Freestyle Terrain before initial use and throughout the day. The features vary in size and change constantly due to snow conditions, weather, usage, grooming and time of day. Do not jump blindly. Use a spotter when necessary.

Easy Style It. Always ride or ski in control and within your ability level. Do not attempt rrain unless you have sufficient ability and experience to do so safely. You control the degree of difficulty you will encounter in using Freestyle Terrain, both on the ground and

Respect Gets Respect, Respect Freestyle Terrain and others. Only one person on a feature at a time. Wait your turn and call your start. Always clear the landing area quickly. Respect all signs and do not enter Freestyle Terrain or use features when closed.

Lift Safety Under Colorado law, you cannot board a lift unless you have sufficient physical dexterity, ability and knowledge to negotiate or to use such lift safely or until you have asked for and received information sufficient to enable you to use the lift safely. You may not use a lift or any ski trail when under the influence of drugs or alcohol.

Snow Cats and Snowmobiles CAUTION: snowcats, snowmobiles and snowmaking may be encountered at any time.

Slow Zones Certain areas (indicated on the map in yellow) are designated as SLOW ZONES. Please observe the posted slow areas by maintaining a speed no faster than general flow of traffic. Space and speed are especially important in these areas. Fast and aggressive skiing will not be tolerated.

Helmet Use Beaver Creek encourages our guests to wear a helmet. While helmets may mitigate or reduce the severity of some head injuries, their use does not guarantee safety and will not prevent certain injuries. Beaver Creek reminds you that every winter sport participant shares responsibility for his or her safety and for that of others using the ski area facilities. At Beaver Creek, the safety of our employees and guests is a top priority. We've s commitment to the next level and all of our employees are now required to use a helmet while skiing or snowboarding on the job at our resorts.

Backcountry Warning Pursuant to the Colorado Ski Safety Act, the ski area assumes no responsibility for skiers going beyond the ski area boundary. To access the backcountry, use designated gates only. Areas beyond the ski area boundary are not patrolled or maintained. Avalanches, unmarked obstacles and other natural hazards exist. Be aware: the the responsibility of the Eagle County Sheriff. It will be costly and may take time.

High-Altitude Environment Some visitors may experience symptoms associated with Beaver Creek's high altitude. Symptoms may include headaches, nausea, loss of appetite, restless sleep, coughing and difficulty in breathing. If symptoms persist or if you have a concern about your health, you should seek medical attention.

Protect Your Skiing and Riding Beaver Creek would like to remind you that your pass or ticket is non-transferable and may not be resold or used by anyone other than the person to whom they were issued. Please report lost or stolen passes to resort staff or law enforcement immediately. Resort staff may ask to you to show your pass or ticket at any time. Failure to show a valid pass or ticket or engaging in fraudulent behavior of any kind may result in loss of skiing and riding privileges, and criminal prosecution.
